PROFESSIONAL SUMMARY

Senior Software Engineer with 3+ years of experience delivering enterprise-grade Warehouse Management Systems (WMS) and Warehouse Control Systems (WCS) at PT Daifuku Indonesia. Specialized in the Java ecosystem (Java 8 & 17) and Spring Boot, with strong command of OOP design, RESTful and SOAP APIs, and relational databases (Oracle, MySQL, PostgreSQL). Proven record of owning the full project lifecycle — from requirements and system design through ASRS hardware integration, on-site commissioning, and production support. Skilled in Agile delivery with Azure DevOps, Git-based version control, CI/CD, and code quality practices including JUnit testing and security scanning. A fast-learning, adaptable engineer who combines deep technical expertise with hands-on client management and a track record of dependable, on-time delivery.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Dec 2022 – Present

PT Daifuku Indonesia | Jakarta, Indonesia

- Designed, developed, and maintained a native Java-based WMS and WCS integrated with ASRS hardware (Crane, Conveyor, STV, Robot ARM) using proprietary communication protocols for reliable equipment interfacing.
- Integrated customer-facing systems via RESTful and SOAP APIs to enable seamless data exchange, ERP integration, and real-time operational synchronization across platforms.
- Architected and optimized relational database structures across Oracle, MySQL, and PostgreSQL, improving application performance, scalability, and long-term maintainability.
- Owned the full project lifecycle — requirements gathering, system design, development, in-house testing, on-site and off-site commissioning, cloud and on-premises server setup, and production debugging.
- Performed systematic root cause analysis and executed SIT and UAT across multiple concurrent projects, refactoring legacy components to improve system stability.
- Led the JDK migration from Java 8 to Java 17 and resolved security vulnerabilities flagged by Nexus IQ and Checkmarx scanning tools.
- Collaborated closely with hardware engineering teams to ensure seamless software-hardware integration and designed end-to-end system workflows and communication specifications.
- Managed software cost estimation for new inquiries and change requests, and oversaw IT operations and after-sales support to ensure high client satisfaction.
- Drove Agile delivery using Azure DevOps Boards for task assignment, sprint planning, and backlog grooming, ensuring transparency and on-time delivery across all project phases.
- Applied Git-based version control (Azure DevOps Repos and GitHub) to manage branching strategies, conduct code reviews, and maintain a clean commit history.
- Supported Oracle Database installation and environment configuration to ensure production-ready deployments.

Technical Consultant (Contract)

Feb 2022 – Dec 2022

PT Graha Technosoft Consulting | Jakarta, Indonesia

- Developed custom business process automation on Microsoft Dynamics CRM using Plugins, Workflows, and JavaScript to streamline client operations.
- Designed and built SSRS reports surfacing high-demand business data using XML queries, SQL queries, and stored procedures embedded in RDL definitions.

- Performed SQL query performance tuning and optimized logic across plugins, HTML, and JavaScript to improve responsiveness and reduce execution time.
- Built and deployed external and internal microservices using .NET Web Services for seamless cross-platform data integration.
- Developed stored procedures and SSIS packages (C#) to automate data retrieval from external databases and JSON APIs via SQL Agent scheduled jobs.
- Applied SDLC methodologies (Waterfall and Agile) across multiple client engagements.

Technical Consultant (Internship)

Feb 2021 – Feb 2022

PT Graha Technosoft Consulting | Jakarta, Indonesia

- Developed an HTML-based reporting dashboard for clear, interactive visualization of complex business data for stakeholders.
- Diagnosed and resolved defects in Microsoft Dynamics CRM, improving reliability and minimizing client disruptions.
- Provided Go-Live support to ensure smooth deployment and successful transition to production.
- Built a UI automation framework using EasyRepro and Gherkin to accelerate the Support Team's testing and QA workflows.

Owner & Manager

Mar 2020 – Feb 2021

Circle Place Coffee Shop | Pekanbaru, Riau, Indonesia

- Managed all daily operations including staff training, customer service, and food safety compliance.
- Tracked daily revenue and prepared weekly and monthly financial reports.
- Maintained cleanliness standards and conducted required food safety inspections.
- Trained new hires on coffee shop operations, machine usage, and service standards.

Promotion Team Member

Jun 2019 – Jun 2020

BINUS University Learning Center (BULC) | Jakarta Barat, Indonesia

- Represented BINUS University in marketing and promotional campaigns targeting high school students outside Jakarta.
- Delivered presentations and promotional materials about BINUS programs to prospective students.

Network Technician

Jan 2016 – Feb 2017

PT Sumidhaz Permata Bunda | Pekanbaru, Riau, Indonesia

- Installed and improved internet network infrastructure for new and existing customers.
- Installed and repaired pointing devices to increase network speed and stability.
- Configured routers and assigned IP addresses for new customer connections.

Teaching Assistant

Apr 2015 – Jan 2016

PT Kumon Indonesia | Pekanbaru, Riau, Indonesia

- Taught mathematics to students and guided them toward correct solutions effectively.
- Reviewed and checked student answers to reinforce understanding.

TECHNICAL SKILLS

Programming Languages: Java, C, C++, C#, JavaScript, SQL

Systems & Technologies: WMS (Warehouse Management System), WCS (Warehouse Control System), ASRS Hardware Integration, RESTful APIs, SOAP APIs, ERP Integration, Microsoft Dynamics CRM, .NET Web Services, HTML/CSS

Tools & Frameworks: Spring Boot, EasyRepro, Gherkin (UI Automation), Azure DevOps, Git, GitHub, JUnit, Apache Tomcat, SSRS, SSIS, Network Configuration, Router/IP Setup

Soft Skills: Client Management, Team Collaboration, On-site Installation, Training & Mentoring, Business Operations

EDUCATION

Bachelor of Engineering – Computer Science <i>BINUS University (Bina Nusantara University) GPA: 3.21 / 4.00</i> Specialization: Database Systems & Digital Transformation	2018 – 2022
Computer and Network Engineering <i>SMK Negeri 2 Pekanbaru</i>	2015 – 2018
